INTRODUCTION

CommBiz IPFX Bulk Settlement upload is designed to make the outgoing international payment process easy and seamless. This function is enabled when a file is uploaded using **File Transfer - Import** into CommBiz to seamlessly create FX trades and attach settlement instructions from the file.

This document outlines the CommBiz IPFX Bulk Settlement Upload File specification and associated business rules.

CONTACTS FOR ASSISTANCE

For assistance creating and testing the upload file, please contact either your Relationship Manager, Global Markets FX dealer, or CommBiz IPFX Support on

 1300 222 339 or  fxcentre@cba.com.au

For details on how to upload and process the file through CommBiz IPFX, please refer to the CommBiz IPFX Bulk Settlements User Guide.

ABBREVIATIONS USED IN THIS DOCUMENT

The following abbreviations are used in the file contents format validations

Abbreviation	Description	Character Set
A	Alphabetic Characters	A-Z, a-z
N	Numeric Characters	0-9
AN	Alphanumeric	A-Z, a-z, 0-9

FILE NAME FORMAT

The file name of the import file must follow the below rules:

1. Maximum length of the file name is 60 characters.
2. The allowable characters in the file name consist of the following
 - a. Upper or Lower Case Alpha (A-Z, a-z)
 - b. Numeric (0-9)
 - c. Full Stop (.)
 - d. Hyphen (-)
 - e. Underscore (_)
3. The leading character cannot be a hyphen or full stop.

FILE DESCRIPTION AND BUSINESS RULES

The CommBiz IPFX Bulk Settlement Upload File is composed of a number of data rows that represent foreign currency transactions. The file format must conform to the below rules:

1. The file is in the format comma separated values (CSV). A comma is used to separate data value fields.
2. No Header or Footer rows are to be included
3. The file must contain between 1 and 200 rows of data
4. The data rows must conform to the format specified in the 'File Contents Data Rows Format' section of this document.
5. CommBiz Markets Bulk Settlement Upload allows up to 15 trades to be created from one file. Therefore the number of different currency pairs required to settle all transactions in the upload file must be no greater than 15.
