

Direct Entry Transaction Reporting - DELIST

CommBiz File Specification

Version: 3.1 (February 2018)

Document Control

Revision History

Version	Author	Issue Date	Changes
3.1	Andrew Dickson	February 2018	New variant to complement BTRS
3	Product Marisa van Schalkwyk	February 2017	New CSV only file variant
2.02	Implementations Fotini Michalopoulos	October 2011	CommBiz file naming convention included.
2.01	Implementations	July 2010	CommBiz Specs

The DE Transaction Report is a daily report detailing Direct Entry items posted to a nominated account or accounts the previous day.

The DE Transaction Report contains the following details:

- BSB and Account Number
- Date of processing
- Title of Account
- Amount (including debit or credit indicator)
- Lodgement reference
- Trace details and
- Transaction description.

These details are not normally presented on the bank account statement and may be useful in identifying the origin of returned or dishonoured transactions and receipts from third parties.

Each bank account may be reported to one mailbox only. Where no transactions have occurred for a particular day, no report will be produced for the bank account(s) in question.

The report is available electronically via CommBiz by 8am the day after the Direct Entry items have been posted.

The report is available with the following filters:

- All debits and credits
- Debits only
- Credits only
- All returns only
- Debit returns only
- Credit returns only

Receivables data files are created within the Bank's systems for access and retrieval by CommBiz customers.

File Naming Convention – CommBiz Automated

The standard file naming convention for CommBiz Automated is:

FileType-SystemFileType-MailboxID-FileSplitNumber-YYMMDDHHMMSSmmm

Where;

FileType - identifies the data contained in the file: DELIST
SystemFileType – provides additional file type subcategory: M23
MailboxID is assigned by the Bank
FileSplitNumber is a Bank batch identifier
YYMMDD is the date the file was loaded to the Mailbox
HHMMSSmmm is the time the file was loaded to the Mailbox

Example: DELIST-M23-YRMBOXID-102-20040316021033453

File Naming Convention – CommBiz Manual

The standard file naming convention for CommBiz Manual is:

FileType_DERReportType_MAILBOXID_DateTimeStamp_SequenceNumber.txt

Where;

FileType_ identifies the data contained in the file: DELIST
DERReportType_ report type: DERPTA or DERPTB
MAILBOXID_ is assigned by the Bank
DateTimeStamp_ is the date and time the file was loaded to the Mailbox: YYMMDDHHMM
SequenceNumber is the CommBiz file sequence number (9 digits): nnnnnnnnn

Example: DELIST_DERPTB_YRMBOXID_201109222135_195207386.txt

DELIST - CSV format (Legacy)

The Direct Entry Transactions Report can be downloaded in a comma delimited format.

This file format can be used to import account information into third party Account Software packages.

File details

File type	fixed width comma delimited, ASCII text
-----------	---

The file consists of 2 record types. These are:

Transaction detail record
Total record

Transaction detail

Field Description	Field Size	Position	Format / Comment / Purpose
BSB Account Number	12	1 – 12	Numeric
Comma	1	13	Alphanumeric
Date of Processing	10	14 – 23	Date (dd/mm/ccyy)
Comma	1	24	Alphanumeric
Title of Account	32	25 – 56	Alphanumeric
Comma	1	57	Alphanumeric
Amount	11	58 – 68	Currency (\$\$\$\$\$\$.cc)
Comma	1	69	Alphanumeric
Credit or Debit	2	70 – 71	Alphanumeric (CR / DR)
Comma	1	72	Alphanumeric
Lodgement Reference	18	73 – 90	Alphanumeric
Comma	1	91	Alphanumeric
Trace Account	16	92 – 107	Alphanumeric
Comma	1	108	Alphanumeric
Transaction Description Refer page 7 for additional detail	16	109 – 124	Alphanumeric
Comma	1	125	Alphanumeric
Unused	10	126-135	Alphanumeric

NB: The account number component of the Trace Account may be either left or right justified and can contain zero padding or filled white space or a combination of the two.

Total Record

Field Description	Field Size	Position	Format / Comment / Purpose
Grand Total	10	1 – 10	Alphanumeric (Fixed description)
Comma	1	11	Alphanumeric
Date of Processing	10	12 - 21	Date (dd/mm/ccyy)
Comma	1	22	Alphanumeric
Trans	5	23 - 27	Alphanumeric (Total Number of Transactions - Fixed description)
Comma	1	28	Alphanumeric
Total Number of Transactions	10	29 - 38	Alphanumeric (Numeric value)
Comma	1	39	Alphanumeric
CR Amt	7	40 - 46	Alphanumeric (Credit Amount -Fixed description)
Comma	1	47	Alphanumeric
Credit \$ Amount	14	48 - 61	Currency (\$\$\$\$\$\$\$\$\$\$.cc)
Comma	1	62	Alphanumeric
Dr Amt	7	63 - 69	Alphanumeric (Debit Amount - Fixed description)
Comma	1	70	Alphanumeric
Debit \$ Amount	14	71 - 84	Currency (\$\$\$\$\$\$\$\$\$\$.cc)
Comma	1	85	Alphanumeric
Unused	14	86-135	Alphanumeric

Transaction Description

For returned, rejected or dishonoured transactions; the reason for return, rejection or dishonour is provided in the Transaction Description field.

Return, rejection or dishonour code	Explanation of the Code on your statement
DE INVALID BSB	An invalid BSB (Bank/State/Branch) number was used for the transaction.
DE PAYMENT STOPP	This signifies that your customer does not have the relative authority for Direct Debit drawings.
DE A/C CLOSED	The account being credited or debited has been closed. Please refer back to the account holder for the correct information.
DE DEC'D CUST	The customer is deceased.
DE NO ACCOUNT	The account number contains an invalid format, or does not exist. Please refer back to the account holder for the correct information.
DE REFER TO CUST	A Debit has been dishonoured.
DE INVALID USER	This code advises that an invalid User ID number was forwarded to the Bank. This number is held in the header record of the original file supplied. Please refer to your normal Bank contact.
DE TECH INVALID	The Bank is unable to identify a character appearing on the transaction.

Statement narratives provided by the Bank are in accordance with specifications prescribed by the Australian Payment Clearing Association (APCA).
